

In a Split Second, The Eliminator

Ranges your target

Calculates your trajectory

Illuminates your perfect holdover

No more guessing yardage or fumbling with a shaky handheld rangefinder. No more losing sight of your trophy. No more guessing holdover. The Eliminator knows the precise horizontal distance to your trophy and exactly what your cartridge will do. Eliminator lights a 1/3 MOA illuminated aiming dot showing exactly where your shot will go. With The Eliminator, just ***Range, Aim, and Fire.***

Starting with the field-proven and bright crystal-clear optics of the original Burris LaserScope, The Eliminator provides a sophisticated yet very simple and accurate

means of tailoring the scope's trajectory compensation to virtually any cartridge.

A few clicks in the set-up mode is all it takes to enter or change the ballistic curve to perfectly match your specific cartridge's ballistic performance.

The Eliminator is affordable and of a size and weight that's welcome for everyday field use. The revolutionary new Eliminator is a brilliant riflescope innovation that ensures long range hunting success.
